

Hear what our users have to say when asked about the Home Health Coding Center

I already have the Coding Manual. Why do I need the coding center?

“Coding manuals are a thing of the past compared to the Expert Coding Center’s abilities. As codes change throughout the year having the Coding Center expert access will ensure that I can locate the correct code or item and get the guidance I need in seconds, all updated in real-time.”

–Samantha with Continuum Home Health

How did you find out about the Coding Center?

“Having completed the 14-day free trial of the Home Health Coding Center I can truly testify that this tool proved to be easy, efficient and very helpful in coding and OASIS review. The positive experience didn’t stop there, as the registration process proved to be an absolute pleasure by having such an informative and helpful sales representatives’ guidance along the way. It is hard to find a great product that is also backed by helpful and knowledgeable customer service and DecisionHealth has that covered.”

–Annette with Annette Mooney Services

Being a new user what do you find most helpful with the Coding Center?

“I am a new user to the Home Health Coding Center, and I am very excited to have a tool that offers a code tracker that is easy to use. Additional product features that I have found extremely helpful are access to OASIS information, the wealth of educational resources, newsletters, tips & tricks, all accessible in the Coding Center. Having these items readily available at my fingertips is invaluable.”

–Maria with Touro at Home

Why do customers stay with the Coding Center?

I have been a Home Health Coding Center user for many years. The education and guidance that is provided on the individual pages is key to my successful coding, and a feature that makes this tool invaluable. The Diagnosis Coding Pro newsletter is a fantastic resource that I use regularly, as it is full of relevant coding and OASIS hot topics. Plus, having the ability to easily search online and reference past subscriptions and items allows me to have the information I need quickly.”

–Elizabeth with Olathe Health
